M291, M292, M293 Matador® Conga Stand

Congratulations on your purchase of the Matador® Conga Stand. Products bearing the Matador name are designed to provide professional quality instruments and equipment at affordable prices. The Matador Conga Stand is another example of Matador's commitment to excellence and innovation.

To help you use this new stand more effectively, we have included this brief instruction sheet.

M 291

INSTRUCTIONS

STEP 1

Attach Adjustable Legs to outside of Support Rods (using 1 Carriage Bolt, washer and nut per Rod) at desired playing height • Carriage Bolts should go through bottom hole of Support Rod from the inside to the outside

STEP 2

Attach Small Diameter Top Ring to inside of Support Rods (using 2 Carriage Bolts, washers and nuts per Rod)

STEP 3

Attach Large Diameter Bottom Ring to inside lowest position of Support Rods (using 1 Allen Bolt, washer and nut per Rod)
